### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Schneider on 7/21/06.

The application has been amended as follows:

- Claims 5 and 6 have been cancelled for pertaining to non-elected embodiments.

2. The following is an examiner's statement of reasons for allowance: It is found that Applicant's argument and amendments in the Response dated 5/9/06 to be persuasive. The amended feature of the air discharge passage not to be used for discharge when the accumulator is in operation has been found to define over the prior art of record. Claim 4 has been rejoined for pertaining to the allowable feature. Claims 5 and 6 are pertaining to figures 7 and 10, respectively, and do not comprise the allowable feature. Hence, claims 5 and 6 have been cancelled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
